Figure 1

Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are information inquiries (last night’s lottery drawing, room reservations, etc.). January 2020 calls for help are higher than December 2019, with 103 calls this month. *The calls received by the HelpLine Center labeled “Lottery” and “Casino” are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Intake Calls YTD 2020

Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of January 2020, the total number of intake calls was 103 (fig. 3).**

The Council has received 9 chat/text requests for help in January 2020. This is in addition to the 103 phone calls requesting help so far this year.

Figure 3

One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Slots and other casino based games were the activity named during the majority of calls in January 2020 (fig. 4). This may be related to high visibility of the Helpline number throughout each of the 12 casinos that currently operate in Pennsylvania.

Figure 4

This month, Philadelphia and Allegheny counties accounted for about 25% of intake calls. In January 2020, the Helpline saw Bucks, Delaware and Berks make up an additional 13.5% of intake calls.
